PROFESSIONAL EXPERIENCE

Core Techs, Software Engineer
Kernersville, NC · 2014–2017

- Improved and maintained TrueChecks 5.0, a MVC 5 website and API. Deploying updates to the website using Octopus.
- Wrote custom data loaders for new clients of TrueCards, a wpf application that uses MS SQL server database.
- Performed TrueCards installs and upgrades for clients (created database with proper permissions, installed and test loader service).
- Performed remote support debugging for TrueChecks and TrueCards clients.
- Created SQL queries/stored procedures for a SQL database.
- Assisted in maintaining and migrating TrueChecks 4.0, a legacy WCF service.

Coder Foundry, Web Software Engineer
Kernersville, NC · 2014

- Created a personal portfolio website using HTML, CSS and JavaScript.
- Created a fully functional MVC bug tracker web application, from scratch, implementing enhanced security and file uploading features.
- Created a fully functional financial portal web application using .NET & Angular framework.
- Created a fully functioning mobile vehicle information MVC application. Included images using Google API. Built RESTful API.

John Ramsey CPA, Jr. Accountant
Austin, TX · 2013–2014

- Prepared tax returns for individuals and monthly bookkeeping for several clients.
- Updated work methods through modern and custom programs.

Nanophotonics and Laser Materials, Laboratory Research Assistant
Austin, TX · 2010–2011

- Operated several class IV lasers along with a Transmission Electron Microscope.
